INTRODUCING NEWARK STUDENT

The Newark Student is the newspaper of the Newark Student Movement, a unit of the American Student Movement, under the leadership of the Central Organization Of U.S. Marxist-Leninists. The basic program of the COUSML is "the seizure of political power by revolutionary violence, guiding the proletariat in its struggle to overthrow the dictatorship of the bourgeoisie and establish the dictatorship of the proletariat so as to achieve communism." All of the strategy, tactics, policies, plans, and campaigns of the COUSML are directed towards achieving this basic program. The Newark Student Movement disseminates and elaborates the political line of the COUSML, and the NSM develops and implements its particular program at E.C.C. under the guidance of the political line of the COUSML.

The Newark Student Movement applies the revolutionary theory of Marxism-Leninism-Mao Tsetung Thought to the concrete conditions at E.C.C. Marxism-Leninism-Mao Tsetung Thought is the most advanced theory in history. It is the theory of the modern working class, the most powerful and revolutionary class in history. The basic interests of the proletariat and students are identical. The solution to the problems of both lies in overthrowing the dictatorship of the bourgeoisie and establishing the dictatorship of the proletariat so as to achieve communism. The proletariat and the students share a common enemy, the monopoly capitalist class, and both constantly fight against the attacks of the monopoly capitalists. But in this common struggle, the working

class, as the most advanced class must lead in everything. In the realm of theory, the proletariat must also lead. In order to succeed in their struggles, students must, therefore, come under the leadership of the advanced theory of the proletariat, Marxism-Leninism-Mao Tsetung Thought.

Mao Tsetung Thought is the Marxism-Leninism of our era, the era when imperialism is being destroyed by proletarian revolution. Chairman Mao is the greatest Marxist-Leninist of our contemporary era. Over decades of complex struggles against the class enemies, he integrated the universal truth of Marxism-Leninism with the concrete practice of the Chinese and world revolution. He inherited, defended and developed Marxism-Leninism to a new stage, that of Marxism-Leninism-Mao Tsetung Thought.

Fellow students, Marxism-Leninism-Mao Tsetung Thought is a living guide to action that is today lighting the revolutionary path of millions of people worldwide. Marxism-Leninism-Mao Tsetung Thought is a weapon for changing the world.

Mao Tsetung Thought spread worldwide and first came to the U.S. in the 1960's during the Great Proletarian Cultural Revolution in China. This was a time when the struggles of the students, the Afro-American people, and the working class were at a high tide. The most serious and thoughtful activists in these struggles took up Mao Tsetung Thought as their own. Summing up their experience in struggle, these revolutionaries saw that in order for the American revolution to succeed, a permanent political party of the most advanced elements of the proletariat, a Communist Party, was necessary. Only a Communist Party could sustain and give guidance to the revolutionary struggles of the working class and people. Since the so-called "Communist" Party U.S.A. had by the 1960's abandoned revolution and became an ally of the bourgeoisie, the revolutionaries who adopted Mao Tsetung Thought saw that it was their central task to build the new Communist Party. Today, it is the COUSML who is shouldering this task in the U.S.

But as has been stated, Mao Tsetung Thought is not only a guide for revolutionaries, it is a guide to all students as well. Ever since E.C.C. was opened, its students have been rebelling against reactionaries. In the late 1960's and early 1970's, the E.C.C. students fought in the hundreds against various forms of racial discrimination. During these struggles, the students bravely defied the capitalist state machine (government). When the capitalists called on their courts and police to halt the student movement, the students ignored the court orders and were not intimidated by the police. More recently, E.C.C. students opposed the monopoly capitalist attempts to make the students pay for their crisis, such as the budget cuts and the cuts

in the bilingual program.

In 1975, some E.C.C. students formed the Afro-Asian-Latin American Peoples' Solidarity Forum (Newark), an anti-imperialist organisation primarily of Third World people living in the U.S. The Solidarity Forum has a great history of supporting revolution in the Third World as well as supporting the anti-fascist and anti-racist struggles of the American working class and people. Newark Student Movement supports the anti-imperialist politics of the Solidarity Forum and encourages other students to do so as well.

The NEWARK STUDENT MOVEMENT began its work at E.C.C. in September. In this short period of time the NSM has widely distributed and discussed with students the political line of COUSML. In particular, an extensive campaign was waged under the slogan MAO TSETUNG THOUGHT WILL SHINE FOREVER! Also the NSM has begun to combat bourgeois ideology by waging class struggle in the classroom. At this time, the NEWARK STUDENT MOVEMENT is in midst of a campaign to denounce the upcoming presidential elections under the slogan DON'T VOTE THEY'RE ALL THE SAME! This campaign will include a public meeting led by the NSM on October 28th.

LONG LIVE THE NEWARK STUDENT MOVEMENT!

LONG LIVE THE SPIRIT OF NORMAN BETHUNE

A CANADIAN REVOLUTIONARY SONG***SUNG TO THE TUNE OF "FAREWELL TO NOVA SCOTIA"

Long live the spirit of Norman Bethune,
The great Canadian Internationalist.
Norman Bethune, Comrade Bethune,
A doctor and a communist.

In 1890 Bethune was born
In the little town of Gravenhurst.
He fought in China: he fought in Spain:
And he always put the interests of the people first.

(Repeat Chorus)

What was the spirit that made Bethune
Adopt the cause of China as his own?
It is the spirit of internationalism,
From which every communist must learn.

(Repeat Chorus)

A man's ability may be great or small,
But with the spirit of Norman Bethune,
he is already noble-minded and pure,
Truly a man of integrity.

(Repeat Chorus)

This is the spirit of new Canada--
The spirit of the people of this land.
Let us too adopt this spirit as our own,
And seize our destiny firmly in our own hands!

(Repeat Chorus)

Down with the two superpowers!
Death to U.S.-Soviet hegemonism!
U.S. imperialists --get out of Canada!
Canada belongs to the people!

(Repeat Chorus)

DON'T VOTE - THEY'RE ALL THE SAME!

On November 2, the presidential elections will take place. At this time, the American working class and people are supposed to vote to determine which monopoly capitalist dictator will oppress them for the next four years. But according to the bourgeoisie's pollsters, less than 50% of the people are expected to vote in this election. Millions of people are participating in class struggle against the bourgeoisie on the political front. A mass movement has arisen to oppose the capitalist political parties and their programs. This development has the bourgeoisie most upset because they hold these elections in order to put up a false front of "democracy" so that they can carry out their all-round fascist offensive against the people. By not voting, the working class and people are showing their hatred for the capitalist politicians and their phoney election circus. Why aren't people voting? Just look at the programs of the capitalist political parties!

All of the parties (Democrats, Republicans, sham "Socialists"), running in this election support a basic three point program consisting of:

- 1) increased exploitation of the working class and people
- 2) growing fascism
- 3) stepped up preparations for new world war against Soviet Social Imperialism

The only differences between the parties is that there are some minor disagreements on how to best implement the all-round fascist offensive against the working class and people. (For detailed analysis see The Workers' Advocate, newspaper of the COUSML, Vol.6, No.8, Oct. 8, 1976.)

While the bourgeoisie is holding the elections to attack the working class and people, the Newark Student Movement urges E.C.C. students to counterattack by using the occasion to denounce the capitalist politicians and their election fraud. The NSM, under the leadership of the COUSML, is currently in the midst of a campaign to expose and denounce the capitalist political parties under the slogan, DON'T VOTE - THEY'RE ALL THE SAME! To this point, the campaign has been warmly received by the E.C.C. students. Many students have stated that they aren't voting and that they support the slogan DON'T VOTE - THEY'RE ALL THE SAME! Only a tiny handful have expressed any enthusiasm for any of the candidates.

This is a good start. As the campaign continues, the NSM feels it is important that students broaden and deepen their grasp of the capitalist political parties and the capitalist elections. To this end, a public meeting will be held to oppose the capitalist political parties and election fraud on Thursday, October 28. (For details on this meeting see other side)
